Applicant's election of Fig. 1C is well taken as the election requirement referred to 1B in error.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13, 14, 21 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Bell et al.

See Figs 3-4 and col. 4, lines 4-48.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 15-20, 22 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bell et al, as applied supra.

To the intent that Glo-Brite is not constructed of plastic it would have been obvious to do so as this is a commonly known material. To provide any number of colors would have constituted an obvious expedient of design. Re: claim 17, see 40. Re: claim 18, to employ material of a waterproof nature in a water environment would have been obvious to the ordinary artisan.

Claims 1-12 and 23 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic

or linking claim. Election was made **without** traverse in the reply filed on November 12, 2004.
